### Education Background

**Centria University Of Applied Sciences**

*Bachelors in Information Technology  
(Double Degree)*

To be completed in June 2025

**Mundiapolis University, Engineering School**

*Bachelors in Applied Computer Science*

Completed in 2024. ( 16.04 / 20 GPA )

### About Me

I am a dedicated and adaptable software developer with expertise in full-stack web development and cloud solutions, specializing in modern technologies. With hands-on experience from internships and freelance projects, I excel in creating user-friendly, scalable applications and solving complex challenges in collaborative team environments.

Currently pursuing a double degree in Computer science and IT, I am eager to bring my skills to innovate projects while continuing to grow as a developer in a forward-thinking organization.

### Experience

#### **Freelance Developer** *(January 2022 -> Present)*

##### Key achievements:

- Collaborated with and delivered tailored software solutions to clients, meeting their unique business needs.
- Designed and developed Full-stack web applications using modern frameworks like ReactJS and NodeJS.
- Developed custom APIs and integrated modern and cutting-edge third-party services to streamline workflows and enhance functionality for clients.
- Provided ongoing support and updates, ensuring a high client satisfaction rate and long-term partnerships.

#### **FSTM** *(April 2024 -> July 2024)*

##### *Full-Stack Web Development Internship*

##### Key achievements:

- Built a user-friendly event management platform allowing students to search, participate in, and review events
- Integrated a real-time participation system ensuring accurate tracking of attendees
- Implemented a responsive design ensuring accessibility across devices, prioritizing customer experience.
- Built a robust review system for feedback collection, which aligns with maintaining high service standards in customer-facing roles.

### Certifications

- **AWS Cloud Foundations**
- **JavaScript algorithms and data structures**
- **Responsive Web Design**
